GENERAL CARRANZA'S NOTE INVITING UNITED STATES TO SUSPEND OPERATIONS AND WITHDRAW ITS FORCES BRINGS GOVERNMENT FACE TO FACE WITH POSSIBLE HOSTILITY FROM THE GREAT BODY OF MEXICAN CONSTITUTIONALIST FORCES

SECRETARIES SUMMON MAJOR GENERAL WOTHERSPOON FOR CONFERENCE SHORTLY AFTER RECEIPT OF COMMUNICATION

Restoration of Embargo on Arms and Precautions Against Border Uprisings as Possible Result of Carranza's Opposition Are Thought to Be Subjects of Conference—United States Plans Thus Far Contemplate No Move Along American Border—Call For Volunteers Will Not Be Issued Unless War Is Declared.

BULLETIN.

WASHINGTON, April 23.—A few minutes after the conference was called Secretary Garrison and Secretary Tumulty left the conference, entered a waiting automobile and drove issued but the border forces might Mr. Breckenridge left the general stopped in the telephone room.

General Wotherspoon would not discuss the subject of the embargo on arms. He said no orders for the movement of troops had been of arms nearing the border for the be strengthened at certain points, particularly along the Imperial Valley. In this valley is located a great irrigation project. At 2:10 a. m., Secretary Bryan had been awakened and was discussing the situation over the telephone with the president.

It was reported about the state, war and navy building that word had come of several large shipments of arms nearing the border for the constitutionalists and that the army officers desired the embargo restored before morning.

None of the officials who participated in the conferences would talk and it soon became apparent that no announcement would be made tonight. At 2:45 o'clock the lights were extinguished in the white house offices, which had been alive with officials and clerks for hours.

WASHINGTON, April 22.—General Carranza's note to President Wilson declaring the seizure of Vera Cruz by American forces a violation of the national sovereignty of Mexico, inviting the United States to suspend hostile operations and withdraw its forces and suggesting that the constitutional government should receive demands for reparation of offense committed by Huerta, stirred the Mexican situation to a new and acute crisis late tonight.

The opposition to the American government's action, coming from an unexpected quarter after the Washington administration had hoped for an attitude of neutrality from the constitutionalists, brought the government face to face with possible hostility from the great body of Mexican forces lying in proximity to the southern tier of the United States.

Secretary Bryan received the Carranza note at his home just before midnight. He did not comment on it. Secretary Garrison and Assistant Secretary Breckenridge, who were waiting at the war department were given copies of the message. Secretary Tumulty, who was asleep, hurried to the war department and Major General Wotherspoon, chief of staff of the army, was summoned to join the conference.

May Restore Embargo On Arms.

Rumors of a possible restoration of the embargo on arms, current during the day, were revived tonight and it was believed this was the subject of the war department conference. Precautions against uprising on the border as possible result of Carranza's opposition to the American government's course were also believed to be under consideration. The joint army and navy board which met early in the day it is understood, recommended the restoration of the embargo on arms into Mexico.

Plans thus far made by the army and navy board to secure reprisals from Huerta had contemplated no move along the American border as it was not desired to make any demonstration that might be regarded by the constitutionalists as directed toward them. Should hostilities develop among the constitutionalists, who are in control along the Mexican boundary of the United States, plans of the army will be changed immediately.

News Falls Like Bombshell.

News that General Venustiano Carranza, constitutionalist chief, had regarded the seizure of Vera Cruz

by American naval forces as an act of hostility to the Mexican nation fell like a bombshell in official circles tonight.

President Wilson had especially disclaimed any act of hostility to the Mexican people, particularly General Huerta as the object of the American operations to insure reprisal for offenses at Tampico and elsewhere against the American flag. Consequently the Washington government had hoped the constitutionalists would remain silent and not interject themselves in the imbroglio.

The constitutionalist chief agreed with President Wilson that Huerta did not represent the Mexican nation, but on the other hand, feared the Mexican people might be inflamed would make them sacrifices to the usurpations of Huerta.

General Carranza described the constitutionalist successes, saying that Huerta was slowly being crushed and that the constitutionalists soon would be in possession of the Mexico City government. When they triumphed, he pointed out, ample reparation would be made for all offenses.

In the meantime he wished the United States to take no steps which would excite the Mexican populace. The note it was admitted by many was capable of a friendly construction but there was some doubt expressed that subordinate officers under General Carranza might be so conservative. Apprehension over this situation was manifest in many quarters.

Would Change Army Plans.

Should hostility on the part of the constitutionalists crystallize, plans of the army will be changed. There were reports during the day that the joint army and navy board already had recommended the restoration of the embargo on arms. Action by congress approving the president's course in using the army and navy in view of the situation he had presented in his message and the receipts of details of the fighting at Vera Cruz were the chief developments of the day. Officials expressed themselves as greatly pleased with the promptness of Rear-Admiral Fletcher's forces in taking possession of Vera Cruz and restoring order there.

Future steps are uncertain. The president has determined that his course shall be gradual. No orders have been issued to seize the customs house at Tampico. It is the purpose of the administration to keep order in Vera Cruz and await the full effect on Huerta in the first act of reprisal by the American government. There is every reason to believe that the railroad running inland from Vera Cruz for twenty miles together with a valuable trestle, will be policed by American marines and bluejackets. This section of the railroad is of supreme importance should future developments require a movement on Mexico City.

Beyond the holding of Vera Cruz and this railroad the Washington government does not want to act at present but persons in the confidence of the American government admit that action by Huerta or Carranza at any time may alter the plans. Fears for Americans in Mexico City and other parts of the troubled republic are expressed in many quarters. The house today promptly passed a bill appropriating \$500,000 to care for refugees. The fact that nothing had been heard from Charge O'Shaughnessy for nearly forty-eight hours made President Wilson and Secretary Bryan uneasy. Early tonight unofficial communication with Mr. O'Shaughnessy was established, but apprehension has not been allayed, as there is little information about the temper of the Huerta government or the people of Mexico City since the capture of Vera Cruz.

Says Huerta Planned Arrest.

In this connection a high government official made public a letter from a friend whom he regarded as trustworthy which read as follows: "I have on reliable authority from man arriving from Mexico City that Huerta personally, with Mexican foreign minister, planned Tampico incident with a view of bringing on

CARRANZA'S REPLY TO NOTE FROM SECRETARY BRYAN.

"Awaiting the action of the American senate on your excellency's message, directed to said body, caused by the lamentable incident which occurred between a crew in a whale-boat of the Cruiser Dolphin and the soldiers of the usurper Huerta, certain acts of hostility have been executed by the naval forces, under command of Admiral Fletcher at the port of Vera Cruz and in the face of this violation of national sovereignty which the constitutional government did not expect from a government that had reiterated its desire to maintain peace with the Mexican people, I comply with the duty of elevated patriotism in directing this note to you with a view of exhausting all honorable means before two friendly nations sever the pacific relations that still unite them.

"The usurped title of the president of the republic cannot invest General Huerta with the right to receive a demand for reparation on the part of the United States, nor the right to grant a satisfaction as due.

"The individual acts of Victoriano Huerta never will be sufficient to involve the Mexican nation in a disastrous war with the United States, because there is no solidarity whatsoever between the so-called government of Victoriano Huerta and the Mexican nation for the fundamental reasons that he is not the legitimate organ of our national sovereignty.

"Moreover, the invasion of our territory and the permanency of your forces in the port of Vera Cruz are a violation of the rights that constitute our existence as a free and independent sovereignty and will drag us into an unequal war with the dignity but which until today we desired to avoid.

"I interpret the sentiment of a great majority of the Mexican people, which is so jealous of its rights and respectful of foreign rights, I invite you solely to suspend the hostile acts already initiated, ordering your forces to evacuate all places which they hold in their power in the port of Vera Cruz and to formulate before the constitutional government, which I represent as constitutionalist governor of the state of Coahuila and first chief of the constitutional army, the demand on the part of the United States for the acts which originated at the port of Tampico in the security that the demand will be considered in a spirit of elevated justice and conciliation."

armed intervention and uniting the Mexican factions with him." The same official expressed the view that Huerta had delayed his answer to the United States for a salute to the ship pending the arrival of the big shipment of ammunition on the German vessel.

Secretary Bryan said today that the status of Charge O'Shaughnessy and Charge Algara was agreed, so far as he knew. Charge Algara has had, however, notification from his government that he may leave when he deems it advisable. This is regarded as possibly forecasting Huerta's giving passports to O'Shaughnessy.

Movements of the navy were continued today. The navy department feels that sufficient force of marines is on the way, not only to take care of the situation at Vera Cruz but of Tampico also, if the order is given for the seizure of the customs house there.

"Until we receive a complete report from Rear-Admiral Badger about the situation at Vera Cruz," Secretary Daniels said, "we have nothing to say about Tampico or ports."

Development Is Believed to Forecast Declaration of War by Huerta

IS PREPARING TO LEAVE

Message Is Not Given Out Until 3:20 A. M.—Think Officials Had It Three Hours

ALGARA MAY LEAVE CAPITAL

WASHINGTON, April 23.—Nelson O'Shaughnessy, the American charge at Mexico City, has been handed his passports by General Huerta and is preparing to leave Mexico City.

Charge O'Shaughnessy telegraphed the state department under date of Wednesday night as follows:

"Having been given my passports I am leaving tomorrow night or Friday morning."

The message was given at 3:20 a. m.

Huerta's handing of passports to Charge O'Shaughnessy was regarded as the most sensational development in the situation, as it was believed to forecast a declaration of war on the part of Huerta.

The giving of passports to a minister of charge d'affaires, in most cases, though not invariably, has preceded a declaration of war.

Although the message from the charge was not given out until 3:20 a. m., it was generally believed that it had been in possession of the officials for at least three hours and that this was one of the subjects discussed when the president and Secretary Bryan were awakened and talked over the telephone about the Carranza note.

Charge Algara already had received an intimation from his government that he was to use his own judgment about quitting Washington and it is probable that when he learns of the prospective departure of O'Shaughnessy he too will leave.

who conferred with Secretary Tumulty, spoke also of the Washington government's intention to proceed slowly, hoping that its successive acts of reprisal might force Huerta to yield from his stubborn position and avert war.

Would Return to Mexico.

Chicago, April 22.—The office of the Mexican consul was crowded today with Mexicans seeking passports to their own country.

"There are about a hundred Mexicans in Chicago of the clerical and professional type," Caesar Cancon, the consul said today, "and about 250 of the laboring class. I have heard from many of them who want to go back to fight for Mexico. So far none have gone, however."

With drums beating and flags flying 187 bluejackets from the naval training station at Lake Bluff, north of Chicago left today for the east, where they will be assigned to ships. The youngsters were eager to see service and talked eagerly of what they would accomplish when they reached the front.

Veterans to Meet.

Elgin, Ill., April 22.—Carl McKee, department commander today called a meeting of the council of administration and camp commanders of the United Spanish War Veterans to meet at the office of Charles L. Daniels, 805 East 63rd street, Chicago, next Sunday afternoon to complete the formation of six regiments offered to Governor Dunne for Mexican service.

VERA CRUZ, Mex., April 22.—The investment of Vera Cruz by the United States forces was completed at noon today. The total American loss in taking possession of the Mexican port was six killed and about thirty wounded.

Rear-Admiral Frank F. Fletcher has taken up his headquarters at the Terminal Hotel. The entire city is strictly patrolled and quiet prevailed tonight. Rear-Admiral Fletcher is now in command of the land operations, while Rear-Admiral Badger, commander-in-chief of the Atlantic fleet has brought his flag into the harbor on the Minnesota.

After the general advance begun this morning Mexican snipers on the roofs put up a stubborn resistance. There was one brisk action, the guns of the Prairie and Chester assisting in silencing a heavy fire from the Naval college, shells from the Prairie finally shattering the walls.

The number of Mexicans killed yesterday is estimated at 150 with many wounded. The Mexican loss today is not known, but it is thought to be heavy.

The paymaster of the British Cruiser Essex, Albert W. Kimball, was wounded on board his ship by a sniper ashore.

The British bluejackets crowded to the bows and vociferously cheered the American marines as they proceeded ashore for the landing.

The flags on the Essex and fortress San Juan de Ulua were half-masted when the dead were carried to the boats.

Departure Is Delayed.

Rear-Admiral Badger has not yet decided whether to proceed to Tampico and it is believed his departure will be delayed. An indication of this is found in the fact that his flagship has entered the harbor.

Major Smedley D. Butler, with marines from the Prairie, made a sortie

up the railway for a considerable distance this afternoon.

It was 8:30 a. m. when Rear-Admiral Fletcher ordered a general movement for the occupation of all the town. A column of bluejackets advanced and passed the market place and naval college. When they had reached the walls of the college a terrific rifle fire was poured in all directions from the roof and the windows.

The bluejackets were helpless to return the fire against the stone walls and scattered.

The Prairie, Chester and San Francisco opened with their five and six inch guns and shattered the walls. The bluejackets re-formed and advanced against the fire which had diminished greatly. By ten o'clock there was only desultory firing from the inshore side of the tower. Battalions of the bluejackets had made their way along the water front to the southern end of the town and cleared several streets, but the sniping from houses continued at intervals.

Show Perfect Marksmanship.

The Scout Cruiser Chester pounded buildings on the outskirts with six inch shells firing over the heads of the men ashore and showing almost perfect marksmanship.

The general movement from all the positions taken yesterday began in the direction of Main Plaza. The marines, under Lieut. Kendall Neville, moved to the southward along Parallel streets toward the center while the marines commanded by Lieut. Commander Buchanan of the Florida and Lieut. Commander Arthur B. Keating of the Arkansas, were ordered from their positions east of the center towards the plaza. The two forces swung forward with a rush for a distance of three blocks. The machine gun and rifle fire was supplemented by shell fire from the smaller guns of the Prairie and Chester. The ship's guns supported the movement of clearing the roofs to the south and east occasionally dropping a shell a few hundred yards in advance.

Buchanan's men under direct command of Lieut. Guy W. O. Castle, moved forward to a position one block directly east of the plaza. Other detachments occupied positions to the north and west. Both marines and bluejackets dragged light field pieces but there was little work for them. There was no organized resistance but from the beginning of the advance a smart fire came from the defenders on the house tops which invariably drew a merciless fire from the advancing parties.

The machine guns sounded their "tap, tap" in all quarters and American sharpshooters posted at street corners and other points of vantage, picked off at will any man who appeared to them acting suspiciously.

Women and Children Wounded.

Among the Mexican wounded were many women and children. Some were killed. The local white organization—a Mexican organization similar to the Red Cross—is assisting in caring for the wounded Mexicans.

Conditions in Vera Cruz began to take on a normal aspect this afternoon. Some of the restaurants were opened and a considerable portion of the native population began to appear in the streets, spending their time in inspecting the damage done. There were no expressions of good will for the Americans but at the same time there was no apparent antagonism. The Mexicans here seem thoroughly cowed and appear to accept with passiveness the presence of the foreign forces.

When the Americans entered the marine barracks they found only one soldier who had been detailed on the roof to guard 25,000 rounds of ammunition. A panic was created in the houses, in the streets along which the marines and bluejackets passed, carrying out orders to search them.

Many doors were locked and had to be broken open, the frightened occupants being convinced that their visitors were looters. The women particularly manifested unbounded relief when they found themselves treated courteously, for, prior to the coming of the Americans the Mexicans had spread reports of the ter-

To the Voters of Morgan County

The special election to choose Judge Owen P. Thompson's successor as Circuit Judge will be held Tuesday, April 28.

The successful candidate at this election will be the presiding judge of the Morgan County Circuit Court.

It is important to this county that he be a man in every way qualified to perform the duties of this high office and one who will give to the court business of this county the time and attention which our large court docket requires.

Every voter of Morgan County should therefore go to the polls next Tuesday and vote.

Hon. Norman L. Jones, of Carrollton, the Democratic nominee is entitled to the support of Morgan County voters. His ability and high standing as a lawyer are not questioned. The fact that at the recent primary his home county of Greene gave him a majority of over 1,700 is as strong a testimonial as could be given any man.

Sangamon and Macoupin Counties each has a resident judge. Mr. Jones' defeat would leave the four smaller counties of the circuit without a resident judge.

We believe a judge living in one of the smaller counties will give to the court business of our county more time and attention than would a judge from one of the larger counties. Mr. Jones has pledged himself to give us all the time he can in order that we may suffer as little as possible from the loss of a resident judge.

We urge the voters of Morgan County to go to the polls next Tuesday and vote for Norman L. Jones.

Democratic Central Committee for Morgan County.

A. D. Arnold, Chairman.

E. P. Brockhouse, Secretary.

We are authorized to publish the following statement from Judge Francis E. Baldwin, who was Mr. Jones' opponent in the primaries.

The judicial election to choose the successor of Judge Thompson will be held next Tuesday, the 28th. The Democratic nominee, Hon. Norman L. Jones is an able lawyer and will make an excellent judge. I am very desirous that he should receive a large vote in this county and I earnestly request you to vote for him, and to urge your neighbors to do likewise.

Very truly yours,

F. E. BALDWIN.

DIFFICULTIES OF FIGHTING IN NORTHERN MEXICO

REBEL STATES WOULD PROVE HARD TO SUBJECT.

Harold A. King, Deputy Sheriff of Texas Border County, discusses Probabilities of Trouble With the Constitutionalists.

"Hardened by three years of fighting and able to withstand hardships, which to the American soldier would be fatal, the Constitutionalists or 'Maderista' soldier of Villa's army would prove a formidable antagonist for the United States volunteer should the worst come to the worst and trouble arise with the rebel army in Northern Mexico," said Harold A. King, of Ft. Davis, Texas, in discussing the possibilities of this country having to face a united Mexican people. "The peon-soldiers of Villa can go for days on little water and insufficient food. Most of them are master horsemen, having been born and reared on the large haciendas of Chihuahua, Coahuila or Durango, states in which cattle herding is the principal industry. They virtually live in the saddle and know the country perfectly."

Mr. King, a former resident of Jacksonville, and a son of the late Mrs. B. H. Grierson, has been in Texas seventeen years and a deputy sheriff of Jeff Davis county fifteen years. As an officer of the law he has come into contact with the Mexican on many occasions. He does not think trouble imminent with the Constitutionalists as there is little likelihood of them burying their differences and joining with the hated "Huertistas." But there is little love in Mexico for the American "gringo" and the Mexican in proud and easy to take offence.

A Hard Country to Conquer.
The Northern Mexican states would be especially difficult of conquest by reason of their mountainous character and great distances between cities and inhabited areas. Like the western United States Northern Mexico is a country of immense distances. Villages are often hundreds of miles apart and hacienda headquarters more than a day's journey. Some of the large haciendas own land by the tens of thousands, and others by the hundreds of thousands of acres. These large ranches are often included in valleys between small mountain ranges, resembling thus the "parks" of Colorado. The country is arid or semi-arid and springs and wells are few and far between. One of the greatest difficulties of Mexican campaigning would be this scarcity of water. The roughness of the land in these northern states, would of course make guerrilla warfare the natural method and at guerrilla warfare the "Americano" would be easily out-classed.

The Life of the Peons.
A writer in the April Metropolitan, who, according to Mr. King, is remarkably true to life, says of the everyday life of the lower class Mexicans from whom the Constitutionalists soldiers are recruited: "It is impossible to imagine how close to nature the peons live on these great haciendas. Their very houses are built of the ground on which they stand, baked by the sun. Their food is the corn they grow; their drink the water from the dwindled river, carried painfully upon their heads. The clothes they wear are spun from wool and their sandals cut from the hide of newly slaughtered steer. The animals are their constant companions." It is the natives of this simple but toughening environment who have won much of the north for the revolutionary cause and would be our own formidable opponents should trouble arise.

Unscrupulous and Vindictive.
The half-Indian peon when fully aroused is cruel and vindictive. This same writer says of the "colorados" a faction of the Huerta forces: "The colorados are the bandits who made the Orozco revolution. They are called so because their flag is red and their hands are red with slaughter, too. They swept through northern Mexico, burning, pillaging and robbing the poor. In Chihuahua they cut the soles from the feet of one poor devil and drove him a mile across the desert before he died." When the Constitutionalists catch a "colorado" they show no mercy. On one occasion they made one barefooted over census for a hundred yards before he was brought down by a rifle. It is this instability and tendency to cruelty in the character of the Mexican, points out Mr. King, which makes the situation so serious. "Carranza, the first chief of the revolution, is a man of ideals and education and were the men of northern Mexico like their leader, I should say that speedy recognition of the Constitutional cause would be the only course for this country to follow."

The Mexican is very sensitive and highly conscious of his "rights" and his "honor." In his veins, the hot blood of the Latin race courses, and when he takes offence he is quick to anger and unforgiving. To sum it up in ordinary phraseology, "You never can tell what a greaser will do, and therefore we must bide our time and hope that the present trouble does not expand to include the whole Mexican people."

COMING FRIDAY.

Harold Bell Wright's most popular and most interesting book, "The Calling of Dan Matthews," has been dramatized by Mr. Wright and Elsbury W. Reynolds, and will be the attraction at the Grand Friday night. The play is in a way a sequel to the Shepherd of the Hills, as its principal character, Dan Matthews, is the son of "Young Matt" and "Sammy," the lovers in the story of the Ozarks.

Messrs. Gaskill and MacVitty, who produced The Shepherd of the Hills, are the producers of the new play, and are said to have given it a sumptuous mounting and an unusually excellent cast.

All in all, The Calling of Dan Matthews should prove one of the most popular and interesting offerings at the Grand.

ARMY OF 400 MINERS FACES MILITIAMEN

**STRIKING MINERS OUT-NUMBER
SOLDIERS OVER TWO TO ONE**

Situation in Southern Colorado Labor War at End of Third Day's Fighting Assumes Extremely Serious Aspect.—Seven Mining Camps Destroyed and Many Lives Lost.

BULLETIN.

Trinidad, April 22.—At 8:30 o'clock tonight H. B. King, an owner of the Empire mine, telephoned that an attacking party was throwing dynamite into the stope of the mine where between twenty and thirty men, women and children are said to have taken refuge.

King could not confirm the report that Superintendent William Waddell and Engineer John Church had been killed. King and a party were preparing to make a rush for the mouth of the mine in an effort to rescue those inside.

BULLETIN.

Denver, April 22.—The entire enlistment of state militia including all branches of service was ordered to mobilize at the two armies in Denver tonight to await further orders for service in the Trinidad strike zone.

Trinidad, Colo., April 22.—About thirty men, women and children, besieged in the Empire mine near Aguilar, with the mouth of stope caved in by dynamite explosions, faced death by suffocation tonight, according to H. D. King, one of the owners of the mine. King himself practically a prisoner in his house not far from the mine gave his story by long distance telephone.

Not a house or a stick of overhead workings was left standing in the camps according to King. The mine tippie had been burned but the interior of the mine had not been fired. If the fan has been put out of commission as reported, King believes that the danger of suffocation was imminent. All firing had ceased before 11 o'clock.

If command of the besieged party was J. W. Siple of Denver, manager of the mines of the Southwestern Fuel company. Mrs. William Waddell and her baby were in the mine, one report stating that Mrs. Waddell had been wounded. Waddell, superintendent of the Empire mine was believed to have been killed. King, however, said he still had hopes that Waddell was with the party in the mine.

"This evening I asked the strikers to permit me to go to the stope and rescue the besieged persons," Mr. King said. "They replied that any one who went near the mine would be shot. The Royal mine tippie and shaft have been destroyed and some of the strikers told me that they had 'cleared up the whole canyon.'"

The final outbreak of the day was reported from Rouse, in Huerfano county, where it was reported an attack had been made upon Rugby and Primrose mines at Rugby Station. A message was received at the offices of the Colorado Fuel & Iron company said a bomb was exploded at the Rugby mine early tonight.

No outbreaks of a serious character occurred elsewhere in Huerfano county today according to Sheriff J. B. Farr. Heavy firing broke out early tonight at Ludlow and lasted for about an hour. What precipitated the shooting is not known.

It was reported four or five strikers had been killed by the defenders of the Empire mine and their bodies taken to a morgue at Aguilar.

Trinidad, Colo., April 22.—Six mine employees dead and two missing, three men, two women and a baby reported to be entombed in a burning mine, seven mining camps destroyed and other property riddled with bullets; less than two hundred militiamen and company guards confronting an army of striking coal miners estimated by strike leaders at more than 400—this was the situation when the sun set upon the 3rd day's fighting in the southern Colorado labor war.

Two guards at Delagua are missing and are supposed to be dead in the hills above Hastings canon. A persistent report was that J. W. Siple, manager for the Southern Fuel company, with two women, a baby and two men, had been sealed in the Empire mine which then had been set on fire by strikers.

Strike leaders tonight asserted that one of their fighting men had been killed during the day's fighting and that only two had been reported wounded. According to the reports received by the militant authorities the fighting at Aguilar, which followed that at Delagua was participated in by the same body of strikers.

The firing at Delagua began soon after day break with a clash between fifteen guards and a large body of miners. There was hot fighting at close range for a few minutes then the guards retreated toward the camp the strikers pursuing.

A party of militiamen hastily sent from Ludlow in steel cars reinforced the guards and after heavy fighting the strikers were driven back.

Shortly afterward a party of strikers appeared in the Aguilar district, separated from the Hastings-Delagua canon by a high range of hills. The assaults of Delagua in the meantime had vanished in the direction of Aguilar. The attacks on the Aguilar mines followed. A party carrying the flag of the American red cross which left Trinidad late today for the Ludlow tent colony to recover the fourteen bodies reported to be in the ruins of the demolished shelters was expected to return during the night.

Trinidad was a scene of intense excitement tonight. The saloons have been closed but throngs of men still congregated on the streets.

Many women and children from the Ludlow tent colony are here, being cared for by union sympathizers. Throughout the day strikers passed in and out of the morgue where lay the bodies of several victims of the Ludlow fight.

Thunderstorm Clears Streets.

A violent thunderstorm, with hail and wind, cleared the streets tonight and residents of Trinidad breathed easier than they had for twenty-four hours.

John R. Lawson, the labor leader said he had no definite reports of the fighting at Delagua, and Aguilar and that he did not know whether the strikers in both attacks were the same. Asked as to the rate of the men and women who were reported to have taken refuge in the Empire mine he said:

"That would be a bad place to seek safety. Even if the mouth of the mine were not blocked persons inside would be in great danger if the tippie were burned."

The strike leader asserted that the ranks of the union's army in the hills constantly were growing stronger.

Comment in House and Senate.

Washington, April 22.—Labor troubles in the coal fields of Southern California and the clash between the strikers and militia at Ludlow, Colo., called forth comment in both senate and house today.

Senator Thomas announced on the floor of the senate that Governor Ammons, who has been in Washington would start for Denver today to take charge of the situation.

"I very much fear," said Senator Thomas, "that the keen desire of young Americans to go to war before many months will find satisfaction and unless society finds some way of putting down the troubles between capital and labor, Mexico will not be the only country torn by internal warfare."

In the house Chairman Foster of the house committee which investigated the Colorado coal strike told of conditions in the strike zone. Representative Seldomridge of Colorado said that conditions were intolerable.

"Our state," he said, "has been left a legacy of death and bitter experience, which has made its name a hissing by-word as an arena of the most cruel and deplorable of industrial disputes."

Representative Seldomridge said that because of the financial condition of the state the governor was unable to put him militia in the field, "until he consults the bankers and clearing houses to get funds."

Kansas City, April 22.—Resolutions calling upon all citizens to demand of President Wilson and congress the suppression of the murderous war on workingmen and women and children of Colorado, a war of dollars against human beings, were adopted by the unanimous vote of the convention of the railway employees department of the American Federation of Labor late today.

Copies of the resolutions were telegraphed to President Wilson, to Vice-president Marshall, as presiding officer of the senate and to Champ Clark, speaker of the house.

MRS. THOMSON TELLS WOMEN

How She Was Helped During Change of Life by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I am just 52 years of age and during Change of Life I suffered for six years terribly. I tried several doctors but none seemed to give me any relief. Every month the pains were intense on both sides, and made me so weak that I had to go to bed. At last a friend recommended Lydia E. Pinkham's Vegetable Compound to me and I tried it at once and found much relief. After that I had no pains at all and could do my housework and shopping the same as always. For years I have praised Lydia E. Pinkham's Vegetable Compound for what it has done for me, and shall always recommend it as a woman's friend. You are at liberty to use my letter in any way."—Mrs. THOMSON, 649 W. Russell St., Philadelphia, Pa.

Change of Life is one of the most critical periods of a woman's existence. Women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

DRAINAGE CONGRESS MEETS IN SAVANNAH

Savannah, Ga., April 22.—The National Drainage congress, for which preparations have been going forward for nearly a year, opened its sessions in this city today with delegates present from many states and from several foreign countries. Included in the attendance are governors, members of congress, colonization agents, railroad representatives, engineers of wide reputation, officials of the United States department of agriculture, and the agricultural commissioners of nearly all of the southern states.

The sessions will continue four days, and during that time much important action is expected to be taken looking toward flood prevention and the reclamation of hundreds of thousands of acres of swamp and bottom lands in the south and other sections of the country which, if adequately drained, may be made to yield the largest crops in the world's history.

Not since the beginning of the movement looking toward government aid in a vast scheme for land reclamation has so much interest been taken in the meetings of the drainage congress and during the four days' session drainage and its kindred subjects, flood prevention, forestry and colonization, will not only be discussed but practical illustrations of what drainage is doing for certain sections of the country will be given.

Foremost among those scheduled to address the congress is Sir William Wilcocks, the English engineer who built the Assuan dam in the valley of the Nile, and who recently has been working to restore channels of the Tigris and Euphrates rivers, in order to reclaim vast areas of territory.

Vehicle tax now due. Notice is hereby given that vehicle license is now due and payable at this office. The ordinance requiring the payment of a vehicle tax will be strictly enforced.

R. L. Pratt, City Clerk.

MR. SWAIN KEEPS IN CATTLE FEEDING BUSINESS

Has Bunch of Fifty Red Durhams Eating High Priced Corn.—Believes They Will Make Some Money.

G. R. Swain of the Sinclair neighborhood is consistently following his long established custom of cattle feeding this spring although market conditions have not been and are not just in the shape to give confidence to the average farmer. Mr. Swain has 50 red Durhams which he purchased a month ago and with them he has 105 hogs which now averaged 130 pounds. When the hogs were put in they weighed from 120 to 130 lbs., and the average cattle weight was about 1020.

In talking about his cattle yesterday Mr. Swain said "I confess that I am somewhat up a stump on the feeding business this year and hardly know where I am at or what I am going to do. Last year I had a bunch of cattle which I bought some time in February, averaging 1020 at a price of \$7.75. Then I knew just about what I could figure on as corn was 40c a bushel, and I put 450 lbs. of weight on them by an early date in August. This was earlier than I intended to let them go but the sale was hastened by the fact that my pasture was short and my water supply low. As it was through the increase in weight and in price between the time of purchase and sale paid for the corn consumed and I had the hogs for profit.

"But this year I will have to figure differently and I haven't got it all worked out just yet. The red Durhams that I purchased weigh about the same as those of last year and they cost me a little more money but the advance price was justified by the quality of the cattle and I believe that if you would look at them that you would agree with me that they are good ones. Its harder too to figure to make money with corn at 65c or more and the bunch has got to be handled right if the figures at the end are on the right side of the ledger. I have some corn but will have to buy at least 1,000 bushels more before the cattle go on the market at the end of the summer. Just now I am feeding some shock corn and we have to watch it with great care because there is such a wide difference in the amount of corn in the fodder. One shock of fodder will have a fair quantity of corn in it while possibly others grown right along the side of it will provide little in there. I have been feeding for not able to simply specify how many shocks a day shall be given but instead we have to watch each shock and be sure as to the contents. Yesterday for example I found that the fodder called was not up to standard and so for a time we had to open the self feeder and let the cattle in there. I have been feeding for a great many years when corn was low and corn was high, but I confess that this year presents some difficulties which I hardly know how to solve."

PROMINENT PROGRESSIVE APPEALS FOR PARTY UNION

Comptroller of New York Prendergast Addresses Indiana Republican State Convention.

Indianapolis, April 22.—William A. Prendergast, Comptroller of the City of New York, in a speech before the Indiana Republican State Convention today, called upon Republicans and Progressives to forget their differences and work under the same banner. Mr. Prendergast was one of the foremost Progressive leaders in the presidential campaign of 1912. He was elected City Comptroller last fall on the Fusion ticket with Mayor Mitchell.

Mr. Prendergast made his appeal for union after a sweeping arraignment of the Wilson administration. He attacked the Democratic party for its tariff changes, its foreign policy, its interference with business and its handling of the Philippine situation, but refrained from criticizing the acts of the administration regarding Mexico.

"Mexican relations," he declared, "have reached a stage when, it seems to me, a suspension of judgment upon each and every phase of that problem is the patriotic attitude to be taken by all Americans. No matter what may have been or may be now our views regarding the treatment that this question has received, when an issue involving the integrity of our national honor is presented to the world, every spark of national feeling requires that the American people should stand as one man in defense of our national interests and in support of that policy which will best protect the inviolable honor of the American flag."

Mr. Prendergast took issue with some of the Progressive leaders—none of whom he named—who, he said, were striving to interfere with the reestablishment of the Republican party. "The differences, that these leaders have in mind," he said, "are not as vital a character as I apparently believe them to be. Time, the great healer, has already produced remarkable results in alleviating much of the strained feeling that existed less than two years ago. It may be that this result has been caused largely by the thought that the Democratic party, which given an opportunity to govern this country, has failed now as it always has failed before. I am also emboldened to believe that this era of better feeling is due to the fact that the reflections of time and the deliberations of our superior judgments have led us to understand that differences, which only a short time ago were regarded as really vital, were not of sufficient moment to permanently separate in their political action men who for so many years have helped to fight the battles of the Republican party, or who, occupying a more independent position in politics, have still found it advisable on most occasions to cast their fortunes with that organization."

Although the party leaders were loath to enter into any coalition, continued the speaker, the progress of amalgamation has been quietly and steadily going forward without their help and in spite of their views. "This situation indicates that the men who cast the votes are capable of correcting political differences. It is to this intelligent conception of political duty that we can credit the great victory achieved in the Seventh Congressional District of New Jersey on April 7th, for although the leaders of the Progressive party placed a candidate of their own in the field, the results of the election proved that those who had given the third party movement in that district a considerable following only less than two years ago, were not now influenced by the policy of the Progressive organization."

"It seems to me that this development proves that amalgamation will be brought about by the act of the individual; leaders who take a reactionary attitude upon the question of a united opposition to the Democratic party will very soon realize that they represent no one but themselves and are leading only themselves. "Among the reasons which may be advanced in explanation of this development, is the belief held by many people that the great movement of 1912 in the name of the Progressive party, has in a great measure fulfilled the purpose of many of its promoters and followers of that period."

Mr. Prendergast discussed the tariff. "Not in twenty years," he asserted, "has the country been confronted with so serious a relaxation of trade and industry." The new tariff, he said, had not fulfilled the Democratic promise of a reduction in cost of living. Instead of a reduction there had been an average increase.

"We have already had sufficient experience with this tariff law to understand that it has helped trade in no way but has hurt it in every way. The Wilson administration, he also declared, had failed to solve the tariff problem.

Most Skin Trouble Readily Overcome

The Active Principle of a Famous Remedy Works Wonders.

Many people have marveled the way S. S. S. overcomes skin troubles. The explanation is the fact that S. S. S. works in the blood and the blood is really a most intricate and extraordinary mass of arteries and veins.

When you come to realize that the skin and the flesh beneath are composed of the network of tiny blood vessels you solve the mystery.

There are wonderful medicinal properties in S. S. S. that follow the course of the blood stream just as naturally as the most nourishing food elements.

It is really a remarkable remedy. It contains one ingredient, the active purpose of which is to stimulate the tissues to the healthy selection of its own essential nutriment. And the medicinal elements of this medicineless blood purifier are just as essential to well-balanced health as the nutritious elements of the meats, grains, fats and sugars of our daily food. Not one drop of minerals or drugs is used in its preparation. Ask for S. S. S. and just insist upon having it. And if you desire skillful advice and counsel upon any matter concerning the blood and skin, write to the Medical Department, The S. S. S. Co., 529 Swift Bldg., Atlanta, Ga. Do not allow some zealous clerk's eloquence over something "just as good" as S. S. S. to fool you with the same old mineral drugs. Beware of all substitutes. Insist upon S. S. S.

NAPS DROP EIGHTH GAME TO WHITE SOX

CHICAGO WINS CONTEST AT CLEVELAND BY 7 TO 0 SCORE.

Graney's Drive in Second Inning Gives Russell Badly Split Hand (Which Will Keep Him Out of Game About a Week)—Scott Finishes Game in Good Style for Sox While Blanding is Rather Wild.

Cleveland, O., April 22.—Cleveland lost its eighth straight game today playing the opening home contest of the season with the Chicago leaders. The score was 7 to 0.

Russell started the game for Chicago but was compelled to retire in favor of Scott in the second inning when a drive from Graney's bat split his hand.

Cleveland had not been able to fathom him and was no more successful with Scott.

Blanding pitched the first seven innings for Cleveland. He was wild, yielded extra base hits at critical moments and received poor support.

Collamore who succeeded him did better work. The injury to Russell's hand will keep him out of the game about a week.

Billings Spiked by Ring Bodie. In the sixth inning, Catcher Billings was spiked by Outfielder Bodie as he slipped into the plate. He was replaced by Carisch. LOCAL BOY WHO MEETS YOUNG TOGO IN SPRINGFIELD THURSDAY

A good scrap is promised the fight fans of this city and Springfield on next Thursday night, April 30th, when Al Baldwin meet Young Togo in the Capital city.

The Jap has made quite a reputation as a boxer, having met some of the best of his class in the ring, among them Battling Nelson and Matty McCue. He is said to have held the Battler to a draw, while in the go with McCue the latter got the decision.

Baldwin is trained down to great condition and will be able to give the Jap the best he has when they meet next Thursday. Many admirers of the sport will avail themselves of the opportunity to see this will, which promises to be one of the best ever staged in central Illinois.

Have Courage. If there is one thing more than another that will cause discouragement it is indigestion, for you should bear in mind that hundreds have been cured, permanently cured, and at a very small expense. Mrs. E. Forster, Lima, Ohio, writes: "I was troubled for a year or more with indigestion. Chamberlain's Tablets afforded the first real relief I obtained, and by taking two bottles of them my whole system was put into a healthy condition." For sale by all dealers.—Adv.

WORLD'S MARKET NEWS

MARKET MAKES GOOD SHOWING IN VIEW OF OPENING OF HOSTILITIES

Stocks at No Time Show Evidence of Nervousness—Trading is Quiet or Then Tuesday.

New York, April 22.—In view of the opening of hostilities with Mexico the stock market today made a good showing. At no time was there any evidence of nervousness. Trading was quieter than yesterday. At the opening prices were barely changed, in spite of a lower scale in London.

After an hour the market weakened. With no increase in activity prices fell away until a number of important issues were 1 to 3 points lower. There the movement stopped. In the afternoon business was dull and toward the close a recovery set in. At the end of the day losses were cancelled in most cases.

Mexican news overshadowed everything else, but the street was not ready to pass judgment on the influence of this new factor. It was felt that the effect would depend upon future developments. Should a long and costly conflict with Mexico ensue involving large government loans and great destruction of property the stock market undoubtedly would register its influence.

Speculators inclined to optimistic views, however, felt that, in the event of a speedy collapse or resistance on Mexico's part the market would benefit.

A few stocks were weak. Canadian Pacific at one time was more than five points lower. Missouri, Kansas & Texas common and preferred reached the bottom figures for several years, although news of the passing of the preferred dividend was not received until after the market closed.

WAR EXCITEMENT HELPS CARRY GRAIN PRICES HIGHER

Developments in Mexico Put Wheat Market Up With Decided Force—Rains in Argentina Aid Upward Movement in Corn.

Chicago, April 22.—War excitement helped carry prices higher today for every speculative article on "exchange." The close was strong all around, with net gains as follows:

Wheat—1 1/2 to 1 3/4c.
Corn—1 1/2 to 1 3/4c.
Oats—1 1/2 to 1 3/4c.

Just why the actual developments in Mexico were sufficient to put the wheat market up with decided force was not very well explained beyond the idea that unforeseen possibilities would have to be allowed for. There was no denying, however, that shorts were much flurried and that other traders had taken advantage of the feeling of nervousness and were disposed for the time being to reap all the reward on the bull side of the market.

Aside from the effect of war talk, the price of corn had an upward slant on account of torrential rains in Argentina. Moreover, the sharpness of domestic receipts coupled with good sized shipments from primary centers led to an increasing belief that the big stock in Chicago would yet go into the hands of consumers at a fairly satisfactory rate. Cash sales here today reach 450,000 bushels or more, making the total for two days about 1,000,000 bushels.

Oats bulged with other grain though selling at times was a somewhat determined sort.

Prospects of moisture soon was what induced resistance by the bears.

War and good southern demand for meals had much to do with bringing about the big advance in provisions. A break in the value of hogs was virtually ignored.

CHILDREN'S DISEASES

VERY PREVALENT

Whooping cough is about everywhere. Measles and scarlet fever are almost as bad. At the onset the symptoms are very similar, feverishness and signs of a cold being in evidence. For the raw inflamed throat and mucous membrane, and for coughing, use Foley's Honey and Tar Compound. It is soothing and healing to inflamed surfaces and the bronchial tubes. Mrs. I. C. Hostler, Grand Island, Neb., says: "My three children had very severe attacks of whooping cough and suffered intensely, and a few doses of Foley's Honey and Tar gave them great relief." For measles cough, and the inflamed throat of scarlet fever, for croup, bronchial and laryngeal coughs, for tickling throat and hoarseness it always gives grateful relief. It contains no opiates and is a pure medicine. That is why it suits particular people. In 25c, 50c and \$1.00 sizes. Do not accept a substitute. For sale by City Drug Store, J. A. Obermeyer, prop.

WILLIAM BAYARD HALE ON "OUR MORAL EMPIRE IN AMERICA"

President's Unofficial Investigation of Affairs in Mexico Upholds Wilson's Mexican Policy in Magazine Article.

New York, April 22.—William Bayard Hale, President Wilson's unofficial investigator of affairs in Mexico, has contributed to the forthcoming number of The World's Work an article upholding the President's Mexican policy and pointing out an important development in the character of American diplomacy. This, he explains, is an interpretation of the Monroe Doctrine, that establishes the suzerainty of the United States only as an effective source of moral inspiration over the nations of Central America and the West Indies.

"The press and the people of America," he says, "have not yet been awakened by the fact that the first year of the Wilson Presidential has given the United States a new character among the powers of the world. Before Mr. Wilson had been in office a week, he had given the Monroe Doctrine an interpretation the implications of which go far beyond anything voiced by Jefferson, Madison, Monroe, Quincy, Adams, Polk, Webster, Grant or Olney. Before Mr. Wilson had been in office a year the Powers of other continents had yielded to the principle of our domination in the Western hemisphere. It is not fantastical therefore to speak of our moral Empire in America."

"Our Moral Empire in America" is the title of the article. The magazine editors point out that Dr. Hale desires to make it clear that he writes simply as a private student of affairs. Nevertheless, they assert that no one except the President himself is entitled to speak with greater authority upon the problems of Latin America.

Discussing the possibility of intervention in Mexico, the article was written before the fleet was ordered to Tampico, Dr. Hale says: "An American army would have no physical difficulty in getting back out of Mexico; nobody would use it up before it got away; the difficulty would be that greed and false sense of national honor would do their utmost to keep us there permanently in occupation."

We do not want Mexico, he declares; especially we do not want her because we do not want the good will of the rest of Latin America. "It would be a fool's act indeed to barter the confidence of a hemisphere for all we could gain by annexing Mexico."

If armed intervention should be forced upon us, he continues, "I predict that our forces will be ordered home just as soon as constitutional order has been restored; and that, so far as the power and influence of President Wilson can bring it to pass nothing in the nature of an indemnity, either in money or land, will be asked or will be accepted. But nobody can predict how far the influence of the vast American investments in Mexico, which would be multiplied in value by being brought under the American flag, might go toward rendering withdrawal impossible. What we do want in Mexico, and throughout Central America, is—order."

The trouble with Central America, Dr. Hale asserts, is its proclivity for revolution. But, he says, most Central American revolutions are "promoted" from Europe in a regular way of business, exactly as a real estate scheme is promoted in America. The duty of the United States is to scrutinize each revolution by itself and to judge whether it be or be not "morally justifiable."

"That duty the United States has now assumed. When Mr. Wilson took steps to inform himself of the facts regarding the Huerta coup d'etat, with a view to passing a moral judgment upon the rightfulness of the de facto government in Mexico City, he took, it seems to me, the most far-reaching and fateful step which the Monroe Doctrine has inspired in all the process of its evolution."

In the case of Mexico, judgment was easy. The coup d'etat that overthrew Madero in February, 1913, was in no way a revolution. It was a barracks plot, a conspiracy of a few army officers, financed by financiers living in exile and a few Spanish reactionaries. It was attended by circumstances of treachery so execrable, of villainy so fantastic, of cruelty so barbarous, that the story is one which the mind has difficulty in accepting as credible.

The chief actor, Huerta, an apologetic Indian, aged, one-eyed, subsisting on brandy, when the moment of his triumph was fully come, rose from breakfasting with the president's brother, beckoned a file of soldiers, arrested him, had him carried away to be shot to death and his body thrown into a hole; went to the Palace, embraced the President whose chief commander he had become with protestations of faithfulness to death, and signalled him by guards to arrest him. By promises of safe-conduct out of the country, the treacherous general secured the signatures of President Madero and Vice-President Pino Suarez to deeds of resignation; hastily gathered less than a quorum of Congressmen in a Chamber filled with soldiers and commanded by artillery; had himself acknowledged as president; carried Madero and Pino Suarez out into the night and had them shot to death behind the prison.

"Perhaps this is enough to suggest that there could be no question of recognizing Huerta as the head of a lawful government—once it had been resolved to scrutinize revolutions. But indeed it would surely have been impossible for tragic romance to have imagined a character so hideously villainous as Victoriano Huerta, or a career so completely justifying the refusal to recognize him."

"Other Powers made no scruple of giving the assassin and usurper immediate recognition. Very well; the United States is not a follower of other Powers. It is, it has been from the beginning of its history, the moral

leader of the world.****It is the mere fact that Great Powers have no consciences—but the United States has a conscience. We are a simple people, unable to rid ourselves of a prejudice against murder.****Tyranny, hypocrisy, sentimentalism, Quixotism, offensive moral superiority, so the British journals say. No, it is not sentimentalism; it is a plain sturdy morality, to which, unfortunately, the foreign politics of too many other nations are strangers. "And it is a very practical morality."

FORMER U. S. SAILOR DEFENDS

NAME OF AMERICAN FLAG

NEW YORK, April 22.—An open air meeting in Park Row, opposite the city hall, today broke up in a riot when a former United States sailor attacked a speaker representing the "anti-military conference" who had shouted at the top of his voice.

"The American flag is not fit to defend,"

Police reserves had to use their clubs before the crowd could be dispersed.

According to the police the meeting was held under the auspices of the Industrial Workers of the World and the orators it was said were members of that organization.

LYNNVILLE.

Edith, daughter of Mr. and Mrs. Vern Hundley has been very sick for more than a week but is now on the road to recovery.

Mr. and Mrs. Mark Todd who have been spending the winter with their daughter, Mrs. Ben Ferguson of Jacksonville, have returned to their home in the village.

Rev. Chas. Houghman of Chapin gave a lecture on "Five Kinds of Pools" at the Christian church last Friday evening under the auspices of the Loyal Daughters' club. Bro. Houghman's lecture was very interesting and was very much enjoyed by a good sized audience. We must say that his lectures have proved to us he is a worthy speaker. The Loyal Daughters served lunch in the town hall after the lecture.

Miss Edna and Lela Harney spent Saturday and Sunday with their parents.

Next Sunday afternoon at 2:00 o'clock the I. O. O. F. will hold services at the Christian church. They will meet at the Odd Fellows hall at 1:00 o'clock and march to the church with the Lynnville band playing some pieces and leading them. Those on the program are Bro. Burnett, Rev. Baylis, Bro. Higgins, Bro. Williamson and possibly some Rebeckah speakers. There will be special music.

Will Hundley is at home from Otranto, Iowa.

CHILD WELFARE CONFERENCE.

Washington, April 22.—Men and women who are vitally interested in the movement for a better child life have gathered here from many countries to take part in the third international congress on the welfare of the child. Today was given over to the reception of the visiting delegates, who have come from various countries of Europe, South America, from China and Japan and from all parts of the United States and Alaska.

The National Congress of Mothers and Parent-Teachers' association, which has directed the arrangements for the conference, has prepared a program extending over five days and providing for the discussion of a wide variety of subjects. The sessions tomorrow and Friday will be given over to papers and round table discussions on the relations of the child to the home. The relations of the child to the school will be the general topic for Saturday. On Sunday "The Church and Child Welfare" will be the general topic, and on Monday the child's relation to the state will be considered.

Among men and women of note who will address the conference on subjects concerning which they are qualified to speak as authorities are Miss Julia C. Lathrop, chief of the children's bureau of the department of labor; Judge Ben B. Lindsey, of Denver; James E. West, of New York, chief scout executive of the Boy Scouts of America; Dr. P. P. Claxton, United States commissioner of education; Dr. Helen C. Putnam of Providence; Mrs. Orville T. Bright, of Chicago; Mrs. Zerita D. Fernajeff, of Bulgaria; Mrs. C. P. NOT GRANDSON OF GEN. LEE.

Wset Point, N. Y., April 22.—Cadet Robert E. Lee, who recently resigned from the United States military academy because of deficiency in mathematics is not a grandson of General Robert E. Lee, as was erroneously stated in a despatch of April 14th.

He is a son of Eddridge Lee, a business man of Dunn, N. C. The war department records do not disclose what, if any relationship the young man has to the Lee family of Virginia.

Congressman Godwin, who appointed him, says young Lee is not a grandson of General Lee although he may be a distant relative.

SPRINGFIELD PRESBYTERY

CLOSED SESSIONS WEDNESDAY

Commissioners Chosen for the General Assembly—Reports Made From All Departments of the Work Show Satisfactory Conditions.

The Springfield Presbytery adjourned its sessions late Wednesday afternoon after transacting a large amount of business. The next meeting will be held at Springfield in October.

Instead of the morning session as planned the delegates went in a body to the chapel exercises at Illinois college. There President Rammelkamp presided and an address was given by Dr. McLeod of Springfield on "The Man of the Hour". It was a very forceful and inspiring address and made a marked impression on the students. At the beginning of the service a prayer was offered by Dr. Lord of Mason City, moderator of the presbytery and the benediction was by Dr. S. M. Morton of Taylorville. Among the delegates present were two alumni of the college, George Brown, class of 1889, Divernon, and Rev. M. Laird, Lincoln, class of 1902. The program for the hour included a duet, on organ and piano played effectively by J. P. Read and Mr. Munger.

At a business session a committee composed of Rev. J. W. Elder, C. Shaffer and C. W. Taylor was appointed to examine the report of the Presbytery. Rev. W. C. Snyder conducted the devotional service and the entire number of delegates stood while the moderator offered prayer for the guidance of President Wilson in this trying time. An invitation to sit as corresponding members was extended to Evangelist E. P. Loose, of the Milwaukee Presbytery, Rev. E. W. Akers of the Adams Presbytery; and Dr. F. A. McCarty, superintendent of the Jacksonville district.

The application of Rev. E. W. Akers for enrollment as a member of the presbytery before his credentials were received was referred to the judicial committee. Dr. W. H. Penhalligon asked to be relieved of the chairmanship of the home missions committee and Rev. D. C. McLeod was appointed in his place. C. M. Goltra the treasurer of the home mission committee gave a report.

Rev. L. H. Davis made a report for the foreign missions committee. A motion was made that the presbytery adopt a rule that commissioners of the general assembly shall be elected according to their term of service in the presbytery. Some other reports presented were as follows:

Educational committee—Dr. A. B. Morey.

Benevolences—Rev. T. H. Givens.

Ministerial relief—Rev. J. W. Elder.

Committee of Freedmen—Rev. W. J. Calney.

Temperance—Rev. W. E. Spooner. Rev. W. S. Kerschner of the German reformed church in the U. S. was invited to sit as a corresponding member. Rev. L. H. Davis for a special committee, recommended that the proposition to organize churches at Stonington and Mt. Zion be approved and that a committee of three be named to make the necessary arrangements. The moderator named on this committee Rev. L. H. Davis, Rev. Mr. Estus and Rev. S. M. Morton. The report as to bills and overtures was read by Rev. S. M. Morton. An overture in regard to vacancies and supplies resulted in the appointment of a committee consisting of Rev. C. E. Jennings, Rev. J. N. McDonald, and Rev. J. L. Coleman, to report at the close of the session or at the fall meeting.

The matter in which there was the greatest interest was the appointment of commissioners to the general assembly. The ministerial commissioners named were Rev. A. G. Bergen; Rev. J. N. McDonald; Rev. R. Carson, alternates, Rev. E. L. Lord, Rev. W. C. Schaffer and Rev. D. G. Carson. The lay commissioners appointed were Messrs. Stone, Carswell and Stephenson; alternates Messrs. Brown, Sperry and Sterling. Mr. Sperry is the only Jacksonville commissioner. The narrative was presented by Dr. D. C. McLeod. Wolford R. Johnson, a student member of Westminster church was examined by the moderator and received as a candidate for the Presbyterian ministry. A committee to confer upon evangelistic work was made consisting of Rev. Mr. Jenney, Rev. Mr. Hildebrandt and Mr. Hemenway. The report on sessional record was given by Rev. A. G. Bergen and Rev. W. E. Spooner presented a report on committees. After some other business of a routine character the Presbytery adjourned.

SAYS SULPHUR IS SURE TO RELIEVE ITCHING ECZEMA

Get Ounce of Bold-Sulphur Cream and Heal Skin Eruptions Right Up.

Any breaking out or irritation on the face, arms, legs or body when accompanied by itching, or when the skin is dry and feverish, can be readily overcome by applying a little bold-sulphur cream, says a noted dermatologist.

He informs us that bold-sulphur instantly allays the angry itching and irritation and soothes and heals the Eczema right up leaving the skin clean and smooth. Bold-sulphur has occupied a secure position for many years in the treatment of cutaneous disorders because of its parasite-destroying property. Nothing has ever been found to take its place in treating the irritable and inflammatory skin affections. While not always establishing a permanent cure it never fails to subdue the itching irritation and drive the Eczema away and it is often years later before any eruption again appears on the skin.

Those troubled should obtain at any pharmacy an ounce of bold-sulphur cream which is applied to the affected parts in the same manner as an ordinary cold cream. It isn't unpleasant and the prompt relief afforded, particularly in itching Eczema, proves very welcome.—adv.

MISS TERESA MAGNER BECOMES BRIDE OF MR. THOMAS J. FLYNN

Ceremony Takes Place at Church of Our Savior Wednesday Morning at 8 O'clock—Will Reside on Farm Near City.

One of the prettiest weddings of the season took place at the Church of Our Savior Wednesday morning at 8 o'clock when Miss Teresa Louise Magner became the bride of Mr. Thomas J. Flynn. The attendants were Miss Rose Magner, a sister of the bride, and John Flynn, a brother of the groom. The ceremony was performed by Rev. Father Formaz, in the presence of a large number of relatives and friends.

The bride wore a dress of white silk crepe made over white silk, made en train. The trimmings were white satin and shadow lace. She wore a white veil and carried a bouquet of bride's roses. The bride's maid wore white silk crepe, made over silk and trimmed with Quaker lace. She wore a wreath of rosebuds in her hair and carried Killarney roses.

Immediately after the ceremony a five course wedding breakfast was served at the home of the bride, the guest list including only immediate relatives. The house was prettily decorated with pink and white carnations and ferns and a large white wedding bell was suspended over the table. At the cutting of the bride's cake Rev. J. W. Crowe got the ring, Lawrence Flynn the dime and Miss Margaret Lonergan the darning needle. The bride's bouquet was caught by Miss Florence Flynn.

The bride is a daughter of Mr. and Mrs. Thomas Magner of 838 North Prairie street and is a young lady of many fine qualities. She received her education in the Parochial schools of this city and for some time has been employed at the Floreth Dry Goods store. The groom is a son of Mr. and Mrs. Lawrence Flynn, who reside northeast of the city, and is a promising young farmer. The esteem in which the young couple is held by a wide circle of friends is attested by the many beautiful and useful presents they received.

Mr. and Mrs. Flynn left Wednesday evening over the Wabash for St. Louis, via Springfield, for a wedding trip, and on their return will take up their residence on a farm of the groom's father, which has already been prepared for them 3 miles northeast of the city.

Among the out of town guests at the wedding were: Rev. Father Maguire, of Franklin; Miss Anna Lockhart of Litchberry; Miss Anna Driscoll of Griggsville and Miss Margaret Lonergan of Murrayville.

ISSUES CALL VOLUNTEERS FOR CONDITIONAL ENLISTMENT

Captain Owen Asks For Forty-eight Men Who Wish to Serve Providing Orders Come in a Specified Time.

Capt. L. P. Owen, commanding officer of Co. B, I. N. G., has received from Col. Frank S. Wood of Quincy, commander of the Fifth Infantry, a communication regarding the present Mexican situation. While Col. Wood calls attention to the fact that it is not expected that war with Mexico will come within a day or two, he asks that each company of the "Fifth" be recruited to full sixty men and that preparations be made so that the other 48 will be ready when the call comes.

To that end Capt. Owen has issued a call for men who wish to volunteer their services, providing orders come within a specified time. His statement follows:

"I am directed by the Regimental Commander, Fifth Infantry, to enlist forty-eight men for prospective service in Mexico. This enlistment will be made conditional upon orders to mobilize. Orders not coming in a specified time their enlistment will be void.

"This will enable young, unmarried men who expect to enlist for service, but not for home duty, to gain some preliminary military training now and place our regiment upon an advantageous footing as regards a quick call for service.

"Any one interested may be enlisted by Recruiting Officer for War, Robbins Russell, Lieut. Samuel C. Hunt or Captain Owen."

Col. Wood's communication follows: "It is not to be expected that war with Mexico and movement of troops will come within a day or two, or even weeks. It was sixty days after the sinking of the Maine before President McKinley issued his call for volunteers.

"We must recruit now to full sixty men, and know where to get the remaining 48 for each company. Let us all be ready, whether the call comes in a day, or a month. The longer that moment is delayed, the more opportunity we shall have for preparation, drill and such things as are so essentially necessary for perfect organization.

"Don't neglect your opportunity. Let us be ready."

Washington, April 22.—Quick action on the annual army appropriation bill followed today when Chairman Hay of the military affairs committee, explained that on account of the Mexican situation the house conferees had agreed to all senate amendments.

The house at once concurred in the amendments and the measure went to the president. It carries a total of approximately \$100,000,000, \$6,000,000 having been added by the senate.

Provide for Americans' Relief.

In response to President Wilson's request of congress today, a bill was introduced by Representative Fitzgerald to appropriate \$500,000 for transportation of American citizens out of Mexico. The bill reads:

"For the relief of American citizens in Mexico including transportation to their homes in the United States, there is appropriated out of any money in the treasury not otherwise appropriated the sum of \$500,000 to be expended at the direction of the president."

Hears Governors' Argument.

President Wilson took a half hour off from Mexican affairs today and listened to the arguments of Governors Spry of Utah, Ammons of Colorado and Oddie of Nevada, against the leasing system of government lands proposed in a series of bills of Senator Walsh and endorsed by the interior department.

The president said he would take the matter under consideration and that he was seeking light on the subject. Senators Thomas and Shafroth, who accompanied the party, were asked by the president as to strike conditions in their state in which he is taking much interest.

FIRE AT BISBEE

BISBEE, Ariz., April 22.—Fire practically wiped out the section known as the Johnson addition to Bisbee in less than two hours today. The homes of 150 families were in the path of the flames. The loss is estimated at \$100,000.

The fire was started by two children playing with matches. The flames, aided by a high wind, swept up the canyon and soon enveloped the closely packed dwellings on the hill.

VERA CRUZ IS TAKEN (Continued from Page One.)

rible things the foreign soldiers would do.

Steps have been taken to establish a form of civil government although for a time it may be more military in its personnel than civil. Such local officials as can be located will be restored to their posts unless there is some good reason for placing them. For the present the fighting is over, except for insignificant operations in the outskirts.

Send Letters to Survivors. Washington, Apr. 22.—Letters expressing the profound sorrow of President Wilson and Secretary Daniels at the death of the four sailors and marines at Vera Cruz yesterday, were despatched today by the secretary of navy to the parents of the men.

The letters were addressed to William Poinsett, Philadelphia; Mrs. Isabella McKinnon, Brooklyn, New York, mother of Coxswain Schumacher; Mayer Marten, Chicago, and Michael Haggerty, Cambridge, Mass. Mr. Daniels wrote to each: "This morning's despatches from Vera Cruz conveying the distressing news that your son was in the first line to give his life for his country, saddens all America as the tragedy brings gloom into your home.

"My feeling and the feeling of the president to you in this sad hour was expressed by President Lincoln, who on Nov. 21st, 1864, he wrote to Mrs. Bixby, of Boston, whose five sons gave their lives fighting under the American flag.

"I now feel how weak and fruitless must be any words of mine which should attempt to beguile you from a loss so overwhelming. But I cannot refrain from tendering to you the consolation that may be found in the thanks of the republic they died to save. I pray that our Heavenly Father may assuage the anguish of your bereavement and leave you only the cherished memory of the loved and lost and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom."

Is Not Seriously Hurt.

Oskaloosa, Iowa, April 22.—Mrs. M. H. Davidson, mother of Private George M. Davidson, wounded at Vera Cruz in yesterday's fighting, received a telegram this afternoon from George Bartlett, commandant United States marine corps, Washington, stating that her son was not seriously hurt.
